St Mary's is rightly proud of its 1878 Father Willis organ and it is the only example of the work of this famous organ builder in the city of Bath. It has given sterling service over the years but now needs major restoration work in order to preserve it for future generations to enjoy. We are extremely grateful to everyone taking part in this programme of concerts and we look forward to welcoming you to St Mary's for one or more of them.

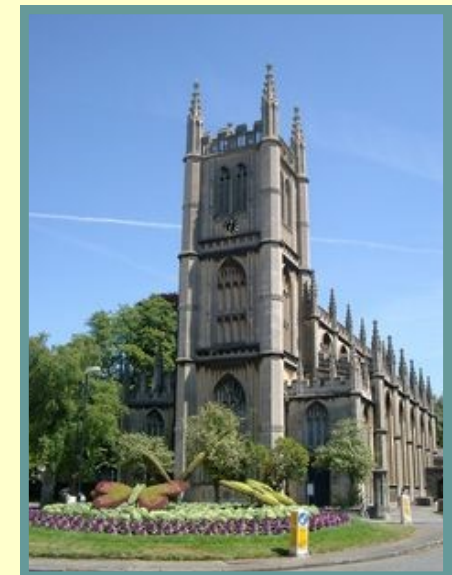

Watch out for news of a 'Sponsor a Pipe' Appeal!
